

[illegible]

A technical drawing of a lathe machine in a side view. The machine consists of a headstock on the left, a tailstock on the right, and a bed. A workpiece is mounted between the headstock and tailstock. A tool is mounted in the tool post on the tool holder, which is part of the carriage assembly. The tool is positioned to cut the workpiece. The drawing shows the tool's profile and the workpiece's shape.
