

The drawing shows a side view of a mechanical assembly. On the left is a large, complex structure with a curved top and a vertical section. In the center is a smaller, detailed view of a specific part, which appears to be a cross-section or a detailed view of a component. On the right is another large, complex structure, similar to the one on the left, with a vertical section and a curved top. The drawing is a technical illustration, likely for a patent or a technical manual.
