

The technical drawing on the left shows a side view of a printing press section. It includes a large frame, a central printing unit with a horizontal bar, and various adjustment mechanisms. The drawing is a line drawing with some shaded areas to indicate depth.

The Isomat 3 diagram on the right shows a 3x3 grid of points labeled A1, A2, A3, A4, F1, and F2. The points are arranged in two rows: A3, A1, F1 in the top row and A4, A2, F2 in the bottom row. A horizontal arrow labeled "Durchlauf-richtung" (direction of travel) points to the right, indicating the direction of the printing process.

The Isomat 4/5 diagram shows two rows of points. The top row is labeled 14, 13, 12, 11, 10, 9 from left to right. The bottom row is labeled 8, 7, 6, 5, 4, 3, 2, 1 from left to right. A legend indicates that a black dot represents the "Andruckwalze" (counter-pressure roller). The diagram shows the positions of the rollers for the two printing units, with some rollers (12, 11, 10, 6, 5, 4, 3, 2) having a rectangular box above them, indicating they are active or in a specific position.
