

The technical drawing consists of three parts:

- Left View:** A side elevation of a machine. It features a large, angled housing on the left, a central cylindrical component with a cross-hatched texture, and a vertical assembly on the right. A horizontal line with a small vertical tick at its end is positioned below the central component.
- Top View (Isomet 3):** A rectangular layout showing six points arranged in two rows of three. The top row points are labeled A3, A1, and F1 from left to right. The bottom row points are labeled A4, A2, and F2 from left to right. Dashed lines connect the points in each row and between corresponding points in the two rows (A3-A4, A1-A2, F1-F2). To the right of this view is an arrow pointing left, labeled "Durchlauf-richtung" (direction of travel).
- Bottom View (Isomet 4/5):** A horizontal sequence of 14 points, numbered 14 down to 9 from left to right, and 8 down to 1 from left to right. Points 14, 13, 12, 11, 10, and 9 are on the top line, while points 8, 7, 6, 5, 4, 3, 2, and 1 are on the bottom line. Vertical lines connect points 14-8, 13-7, 12-6, 11-5, 10-4, and 9-1. Points 6, 5, 4, 3, and 2 are marked with small rectangles. A legend to the right shows a solid black dot followed by the text "Andruck-walze" (impression roller).
