

The drawing consists of two parts. The left part is a side view of a mechanical assembly. It features a large, curved, C-shaped component on the left, which appears to be a housing or a guide. To its right is a smaller, rectangular component. Below these, there is a horizontal base or support structure. The right part of the drawing is a detailed view of a component, possibly a valve or a connector. It has a central rectangular body with a cross-hatched section, indicating a specific material or internal structure. This component is flanked by two vertical sections, each with a small circular feature. The entire drawing is rendered in black lines on a white background, with no shading or color.
